November 2019 – January 2024
Computer Science Teacher • Bidur English Boarding High School

Key Skills

Python
Django
Laravel
React.js
Bootstrap
Tailwind

Responsibilities: I create and present in-depth Python Django courses as a Coding Instructor at Code IT, making sure that students understand both basic and complex ideas via engaging instruction. I work as web developer at CodeSpec Solutions and use Django to create dynamic applications. I helped with the creation and optimization of web applications while working as a Laravel Developer intern at Matin Softech. In my previous role as a computer science teacher at Bidur English Boarding High School, I taught programming fundamentals, creating a learning environment that promoted students' ability to think critically and solve problems.
